GUIDELINES FOR SHARED RESOURCE PUBLICATIONS REBATE PROGRAM

BACKGROUND

Given the importance of the CFCCC-supported Shared Resources being duly acknowledged in CFCCC member publications and presentations, the CFCCC is offering a $250 rebate towards publication costs for manuscripts that

a) are cancer-related,

b) are accepted for publication in a peer-reviewed journal between April 1, 2019 and January 31, 2021,

c) appropriately acknowledge a CFCCC-supported Shared Resource, and

d) cite the Cancer Center Support Grant.

PROGRAM DETAILS

Effective Term:
April 1, 2019 and January 31, 2021

Applicable Shared Resources:

- Genomics High-Throughput Facility (http://dmaf.biochem.uci.edu/)
- Optical Biology Core (http://obc.bio.uci.edu/)

Rebate Process:

- After a manuscript is submitted for publication, the CFCCC member Investigator emails a copy of the preprint and manuscript acceptance to bmcclell@uci.edu with copy to the Shared Resource Faculty Director and the CFCCC Investigator’s departmental financial analyst.

- CFCCC Administration will review the preprint for (a) cancer relevance, (b) appropriate attribution of the Shared Resource and (c) citation of the Cancer Center Support Grant (P30CA062203).

- If the three criteria are met, i.e., it is deemed cancer relevant and the Shared Resource is acknowledged appropriately (see ACKNOWLEDGEMENTS AND AUTHORSHIP GUIDELINES FOR CFCCC SHARED RESOURCES) and the CCSG is cited, CFCCC Administration will contact the Financial Analyst and have $250 of the publication costs transferred to CFCCC accounts.

  Note: If publication costs were charged to a grant that has ended or is otherwise inactive prior to the issuance of the rebate, CFCCC will transfer $250 to the CFCCC Investigator.

- If the manuscript fails to meet all of the three criteria, the rebate will be denied.

CITATION TEXT

“The authors wish to acknowledge the support of the Chao Family Comprehensive Cancer Center <SHARED RESOURCE NAME HERE> Shared Resource, supported by the National Cancer Institute of the National Institutes of Health under award number P30CA062203. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health.”
