

BSR Liaisons to Disease Oriented Teams

The Chao Family Comprehensive Cancer currently has six Disease Oriented Teams (DOTs): 1) Colorectal Cancer (Colon), 2) Hematologic Malignancies (Heme), 3) Genitourinary Oncology (GU), 4) Skin Cancer (Skin), 5) Gynecologic Oncology (Gyn), and 6) Neurologic Oncology (Neurologic). Each team meets monthly at the Medical Center in Orange or, in the case of the Skin DOT, meetings alternate between locations at the Medical Center and the UCI Main Campus. Participants may attend DOT meetings in person or remotely by voice dial-in or via the GlobalMeet® web-conferencing tool. The following table shows the BSR faculty liaisons to each of the Disease Oriented Teams.

BSR Liaison for each Cancer Center DOT

Disease Oriented Team	Biostatistics Shared Resource Liaison
Colon	Thomas Taylor, Christine McLaren
Heme	Dan Gillen, Michael Phelan
Genitourinary (GU)	Kathy Osann, Michael Phelan
Skin	Michael Phelan
Gyn	Christine McLaren, Kathy Osann
Neurologic	Dan Gillen
